

About Kingdom of Doctors

Kingdom of Doctors is a licensed training and postgraduate guidance agency specialized in the healthcare sector dedicated to raising the level of competency and awareness within the field and the community. In addition to that, the agency supports healthcare facilities to pass the CBAHI Accreditation process by providing consultations and preparatory courses. It was established as a joint venture with Al Salam Hospital in Riyadh.

Vision

The pioneering agency in subduing the gaps of healthcare knowledge and excelling it within the Arab region.

Mission

To facilitate healthcare practitioners towards fitting postgraduate opportunities, and to offer up to date, relevant and quality medical training, and to spread primary healthcare awareness, all to develop and increase the knowledge, skills, and professional performance within the healthcare sector and the community. Offering consultation services and preliminary training to insure the readiness of healthcare establishments for CBAHI accreditation.

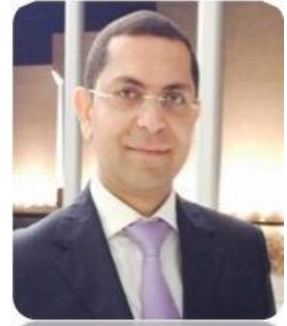

Objective

- To promote the primary healthcare awareness among the local community.
- To assess the establishment in relation to the requirements of CBAHI by experienced consultants and initiating a report to the responsible personnel after reviewing any previous CBAHI reports if available.
- To form a CBAHI task force team involving the hospital director, department heads, concerned staff and some of the agency's experts and to train the task force utilizing a wide range of courses and seminars in order to promote quality and comply with accreditation standards.

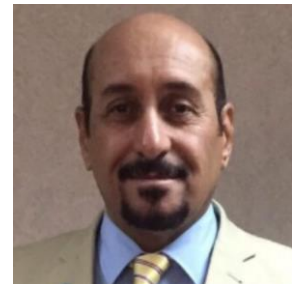

- To prepare the healthcare facility so that the standards of CBAHI are appropriately implemented in its procedures, protocols and documents and making the necessary changes.

Our CBAHI Consultants Team:

Dr. Abdullah M. A. Ibrahim - Member of the European Organization for Quality, Head of Scientific Committee Healthcare Quality Conference in Bahrain.

Dr. Bahi El Din Hosiny Metwally- Director of Quality Management Department at Dhahran Specialist Eye Hospital, JCI Accreditation Team Leader DESH.
